globalpayments

This wordmark serves as our primary corporate logotype and should be presented as an independent element surrounded by appropriate white space. When visual space is limited, the primary wordmark may be replaced with the "g" symbol. As a rule, the wordmark and symbol should be presented independently—not shown together.

File format

.jpg
For use on digital displays and websites. Place on white backgrounds only.

.eps
For professional use by printers and designers, requiring design software such as Adobe Creative Cloud.

.png
For use on digital displays, G Suite programs (Docs, Sheets, etc.) and websites. PNGs can be placed on colored backgrounds.

.svg
For use on digital displays and websites. SVGs are vector based, scalable and can be animated.

Logo file name

GlobalPayments_Wordmark_CMYK.jpg

Color configuration

_RGB
For on-screen use, such as in G Suite programs and websites.

_CMYK
For printing internally using laser and inkjet printers, and for external printing when not using matching inks.

_PMS
For printshops using matching inks.

_K
For one-color printing, internally or professionally.

_REV
For placing on colored backgrounds. For on-screen (PNG) and professional printing (EPS) usage.
